If you need fighting game, RPG game, glu game, battle game, arcade game, strategy game, turn based, Xbox 360, BLOOD & GLORY: LEGEND APK is the best packed action, fast pace, mind blowing, free game, game experience. Blood & Glory: Legend is a continuation of a blood massacre. You can become a legend by defeating all opponents in the arena who perform a bloody dance to a jubilant howl of the crowd. Compared to the first part of the game, the game received improved graphics and more qualitative textures of the environment. In this part, the developers decided to add a story line. Now, not only cut the throats of your enemies, but act in the name of a great purpose that will open before the eyes of the players in drawing comics. You must reach the Great Emperor, destroying the arena champions. Some in your hostile environment were your students. The arenas have changed, but only in their appearance. There are several enemies; there are six of them instead of five, and the latter is the boss. New enemies have emerged, prices for weapons and armor have been reduced and what is the most interesting thing - you can rob caravans and play mini-games of this type: evade an attack 15 times, perform special attack 8 times, etc. In general, the game became more colorful, more bleeding, and, of course, having a more complicated story.
